about

Our factory was established on March 27, 1996. Within the framework of plastic product manufacturing, molds are produced within our company and taken into production. Our company has always adopted the principle of working long-term, based on trust, fulfilling customer suggestions and requests.

Since its establishment, it has always renewed itself and provided professional service to our valued customers. In 2003, disposable plastic products were included in the production range of our company. Our products are produced and packaged in a completely hygienic and sterile environment. We are using latest technology machines in our production line. We have been in a friendly relationship with our customers since the day it was founded.
